Re: Historic Use Production Permit
Application No. HUPP-2010-002

Dear Mr. Gillaspie,

Please be advised that the Southern Trinity Groundwater Conservation District (the "District") received your Historic Use Production Permit Application on March 10, 2010. Pursuant to § 9.209 of the District's Rules, the District's general manager has reviewed your application and has determined that the application is not administratively complete. More specifically, the application has the following deficiencies:

1. The Historic Use amount on Part A Line 12 and Line 13 does not match the documentation for the year 2000.
2. A copy of your CCN map

You must submit the above documentation in writing to the District within 30 days of your receipt of this letter or your incomplete application will be returned to you.

The above deficiencies were discovered during the preliminary review of your application. Your application is currently under additional review. The District will inform you in writing if any additional information or clarifications are required, or that your application is administratively complete.

If you have any questions concerning this matter or the District's Historic Use Production Permit program in general, please call Tricia K. Law at (254) 759-5610.

Please keep this letter as a permanent record for your file.

Sincerely,

Tricia K. Law
General Manager

The Board of Directors of the Southern Trinity Groundwater Conservation District ("District") has recently completed the Groundwater Management Plan and amended Rules for the District (a digital copy of the rules is on the enclosed CD-ROM disk or can be downloaded from <http://www.co.mclennan.tx.us/commis/stgwcd.aspx> or picked up from the District office at 420 N. 6th Street, Waco, Texas). Under the District Rules, all groundwater withdrawals for non-exempt uses in the District such as municipal, industrial or agricultural irrigation purposes, must be authorized by a valid Historic Use Production Permit ("HUPP"), a Non-Historic Use Production Permit ("NHUPP") or Interim Production Status. Well owners without a permit from the District will be required to cease all groundwater withdrawals. Exempt users of groundwater are required to register their well(s) with the District but no permit is required.

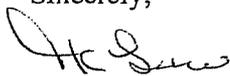

The State of Texas Groundwater Management Area 8 has designated 20,194 acre-feet per year as the amount of Managed Available Groundwater (MAG) available to be withdrawn from the portion of Trinity Aquifer within the District. The District's rules require that Historic Use Production Permits be issued based on the maximum amount of groundwater beneficially used in any single calendar year from 2000 through 2009.

The District's rules require all Historic users of groundwater within the District to file an administratively complete HUPP application with the District by no later than May 1, 2010, and pay the required application fee. I suggest that you file your application with the District as soon as reasonably possible so it may be reviewed for administrative completeness prior to May 1, 2010. A copy of this application is enclosed. A digital copy of the application can be downloaded at <http://www.co.mclennan.tx.us/commis/stgwcd.aspx>.

The District will hold a workshop on March 18, 2010 at 6:00 p.m. at the Hewitt Community Center at 208 Chama, Hewitt, Texas to help well owners complete their applications.

You are also encouraged to call the District office at (254) 759-5610 or email me at southerntrinitygcd@att.net to schedule a time to meet with me to review your application or to answer any questions regarding your application.

Sincerely,

Tricia K. Law
